

In 1993 Mary Erwine set out to create a health care organization that was committed to both state of the art medical technology and compassionate, personalized care that focused on the needs of each individual.

Though we have grown over the years, under Mary's guidance, Erwine Home Health and Hospice and Erwine Private Duty Care has remained true to her original vision and commitment .

Today we care for many patients in Northeastern Pennsylvania. We conscientiously fulfill the attending physicians instructions and provide the kind words and caring hands every person needs.

When asked to choose a home health care provider for yourself or your loved ones, choose Erwine Home Health and Hospice or Erwine Private Duty, for compassionate state of the art health care.
